BEST QUALITY WITH NO SHINE

All of our money props are printed in our facility using the highest grade offset press printing machines. This process delivers the most detailed graphics, highest quality and colors on our prop bills that will never show hot spots, glare or shine under production lights.

SPECIALLY DESIGNED FOR COLOR CORRECTION.

Clean and clear colors so you can have full control in post production when you are color correcting your scenes or photographs.

EXTREME CLOSE UP OR MACRO SHOTS? NO PROBLEM.

If your production requires an extreme close up or macro cinematography, our money props are perfect at 4k+ resolution.

LEGAL DISCLAIMER

Production Props and Media Designs LLC has carefully created these money props while focusing on the legal requirements of the production of prop money. The purpose of PPMD's PropMovieMoney.com is to keep filmmakers and photographers from illegally scanning and printing copies of real currency for their productions. The artwork of our production prop bills include design characters, designed buildings, fictitious serial numbers, and our custom designed emblems and logos. Each prop bill has been clearly marked with "THIS NOTE IS NOT LEGAL TENDER" and "FOR MOTION PICTURE USE ONLY" has been clearly printed on all the prop bills.

- These prop bills are NOT scans of real currency or mass Xerox printed. They are made by using elements such as borders, custom designed art, custom fonts, custom designed logos, emblems and custom designs from scratch by our team of professional graphic artists.
- We cannot remove the "FOR MOTION PICTURE USE ONLY" round graphic emblems, and "THIS NOTE IS NOT LEGAL TENDER" text on either side of the prop bills.
- Any request that can make our prop money appear or pass as real currency in order to deceive an individual in an unlawful manner will be quickly turned down.
- We reserve the right to refuse or deny service to anyone.

List of legal features on our prop money designs include:

- Prop bills are cut slightly smaller than real currency which is not noticeable on camera.
- New style \$100 prop prints does NOT have a working hologram and cannot be created with a working hologram.
- President and character faces are designed to resemble fictitious characters and are dramatically different than the real presidents and characters.
- The names underneath the characters are stated "FOR MOTION PICTURE".
- Emblems and seals both on the left and right of the prop bills are our own custom designs and are clearly labeled "FOR MOTION PICTURE USE ONLY", "UNITED WE STAND" or "THE UNITED STATES".
- Back ground art on newer style prop bills are designed and is different than the art on real currency.
- The colors and contrast of the prop money has been designed to give the highest quality for HD cameras, film cameras and photography cameras and are not exactly the same if compared side by side to real currency.
- Borders on our prop bills are different than real currency and there is NO text stating "FEDERAL RESERVE NOTE" on either side of the prop money nor can we add it as a request.
- Serial numbers are fictitious and reoccurring on all of our prop bills.
- Treasurer and Secretary names are fictitious. Nor does it say "Treasury of the United States" or "Secretary of the United States" on any of the prop money.
- The text "THE UNITED STATES OF AMERICA" specifically stating "AMERICA" or its states and/or cities is not shown on any of the prop bills front or back and has been replaced with "FOR MOTION PICTURE USE ONLY", "UNITED WE STAND" or "THE UNITED STATES".
- The years or dates on the prop bills are different than those of real currency.
- Buildings on the back of each prop bill is significantly different than real US currency.
- The paper that each prop bill is printed on is quality printing paper not the fabric similar to real currency and does not have the same texture, feel or security features of real US currency.
- Holograms, holographic numbers and holographic emblems on the prop bills front and back does not reflect or bend with light nor can they be created to reflect or bend with light.
- Absolutely none of our prop money will pass a counterfeit detection pen or counterfeit detection machine.

Illustration demonstrating how our prop money designs are created and digitally assembled using our logos, text, images, and made to look different than real USA currency.
