Attraction Theming & Rockwork

Scenario's reputation for artistic expression is second-to-none. From hyper-real to authentic re-creations, our project process makes the work of thematic environments a collaborative journey with fantastic results.

Architectural Specialties Division

Exquisite millwork, specialty metals and other ornamental work can make a statement in the built environment. From modern elegance to architectural whimsy, Scenario has the talent, process and experience to tackle any job.

Zoo & Aquarium Division

Our company has assembled a team of industry experts with a wide range of experience in animal and marine life habitat construction. We work closely with the owner and design team to achieve creative intent while utilizing innovative and cost-effective fabrication solutions.
