

SET LIGHTING

Warner Bros. Studio Facilities Set Lighting encompasses equipment rentals and services. With technology continually advancing, our rental inventory ranges from the latest in HMI (electronic technology), LEDs, Moving Lighting to Max Movers and traditional incandescent product lines. We offer lighting packages for feature, television, video and commercial production and all types of special events.

Our team of professionals are well versed in all aspects of production lighting. We offer assistance in scheduling and booking skilled production electricians.

Give us a call for a competitive quote on your next project.

Solid State LED Space Light

**Available Exclusively at
Warner Bros. Studios Set Lighting**

THE FACTS:

- > Designed to blend seamlessly with any tungsten source
- > A lumen output equivalent to 6000 watts of tungsten but drawing only 10 amps (a savings of 40 amps per light from the tungsten space light)
- > Substantial heat reduction on stage.
- > A color temperature of 3200 Kelvin and color rendering index of 93 or better
- > Dimmable via DMX from full on to blackout with no color shift
- > 50,000 hour life expectancy
- > Maintenance free, no globes or skirts to replace due to burnouts
- > Shares standard space light accessories
- > Weighs 49 pounds
- > Tested on film and digital media and analyzed by the Warner Bros. Motion Picture Imaging staff (test results available for your viewing with advance notice).

"These lights were amazing. I'm always glad to embrace new technology when it adds to the quality of the image and is more cost and work efficient. Used over 100 on a recent shoot, perfect color temp (no green) even when dimmed, low power consumption and minimal heat. What a savings in rig time, cable runs and other gear. Not to mention we never had to turn on the air conditioning."

Bob Eberlein - Director of Photography - Executive Producer, Image Steams Inc
